Henri Rochette Arrested in 1908 Fled: Found in Army; Again in Court.

By the Associated Press.

PARIS, June 20 .- Henri Rochette anker and promoter; who was convicted of swindling before the war broke out and who disappeared while the case was on appeal, only to return to France and serve under an assumed name in an automobile secassumed name in an automobile section, was brought before the criminal court again today on the charge of the abuse of confidence in connection with the issue of 8,000,000 francs in bonds of the Central Mexican railroad

in 1910.

M. Rochette throws the responsibility on his associate, M. Carbonneau, now dead, who, he claims, sent part of the funds realized from the sale of the bonds to a Mexican named Madero, who used them for revolutionary propaganda in that country.

Henri Rochette was arrested in 1908 charged with wholesale swindling in connection with the operation of bucket shops, it being alleged that \$20,000,000 was involved. Released on ball, he remained at liberty until 1912, when he disappeared. He was located in Mexico City area and occupied a position close to Francisco Madero, then President of Mexico. The Madero, then President of Mexico. The French government demanded his extradition, but he again disappeared and took refuge in Switzerland.

Found in French Army. In October, 1916, Rochette was found in an automobile section of the French army and placed under ar-rest. He had served since the first of

the war under the name of Georges Bienalmee. In 1912 charges were made that government officials had been inter-

ested in protecting Rochette after his release on bail. A parliamentary committee reported that there had been "government intervention" in the case. the case.

In 1914, when Gaston Calmette, editor of the Paris Figaro, was shot and killed by the wife of M. Caillaux, former minister of finance, the case was revived. The shooting was the result of violent attacks made upon M. Caillaux in the Figaro, among the charges being that he had been connected with Rochette's operations.
